Allied Airmen Bomb and Set Fire to Enemy Concentration Towns

FIGURES BY AT LEAST 2500

Registration Will End Saturday Night With Total Below Normal

OPPORTUNITY GIVEN TO THE NEGLECTFUL

Democrats Show An Increase Over Their Numbers Two Years Ago

1918	1916
Progressive 123	1,039
Republican 9,523	9,889
Democrat 4,316	3,746
Prohibition 1,345	1,453
Socialist 430	525
Prog. Rep	11
Decline to state 1,996	3,435
Total	20,099

The registration of Orange county today is probably 2500 less than it was at this time in July, 1916.

Registration closes Saturday night of this week, and today there are several thousand voters in this county who are not on the great register.

The figures given above indicate that the Democrats have made a gain in registration, and there has been a falling off of 1500 in the declining to state voters and about 900 in those registering as Progressives.

The fact that there are between 750 and 1000 Orange county men of voting age who are away from the county in the army and navy accounts for only a portion of the falling off in registration figures this year when compared with two years ago.

The figures for 1916 were compiled for July 10, 1916. Those for this year were compiled at the county clerk's office this morning, but do not include what registrations have been made recently by deputies in the field. A similar condition existed when the July 10, 1916, totals here given were

Where to Register

Within the last few days a steady stream of voters have been coming to the office of County Clerk Edwards for registration. Any person not registered since Jan. 1, 1918, may register at the office of the county clerk or with any one of the following registration deputies:

Anaheim-Emma H. Nichols, Bertha Myers, E. C. Dutton, Victor LaMont Eva Merritt.

Bolsa-Preston C. Stroud. Brea-Harry Ray, C. C. Kinsler, Besse Salveson Buena Park-R. H. Duncan, R. C.

Turkey Promises to Do "Full Duty" to Us For Tabriz Outrage

Still Investigating, But Hampered by Poor Communication, Swedish Report

WASHINGTON, July 23.—Turkey has promised to do her "full duty" toward the United States, should it develop that her troops are responsible for anti-American outrages against Tabriz.

This means she would attempt to avoid war through the pledge of reparation of damages. The Swedish foreign office notified the State Department today that Turkey is still investigating but is having difficulties with poor communications.

Government Control Of Wires to Become Effective on July 31

Postmaster General to Supervise; David J. Lewis Will Be U. S. Director

WASHINGTON, July 23 .- Official announcement was made this afternoon that the government will assume control of the telephone and telegraph systems at midnight, July 31. President Wilson signed an order placing administration in the hands of the Postmaster General.

Burleson announced the purpose of the postoffice department will be to "broaden the use of the service at the least cost to the people." He stated the only change affecting press wire service will be to improve the service if possible. Burleson stated that unification of control of the various systems would eliminate paralleling lines and result in a more economical administration.

WASHINGTON, July 23.-The nation's communication lines will go under Government control July 31.

President Wilson today signed an executive order providing for Federal wire operation under the Aswell resolution.

Postmaster General Burleson will supervise the work, with David J. Lewis, as director.

In the absence of official announcement of the seizure, exnected about 2:30 n. m. after Postmaster General Burleson prepared a statement of his intended course of action, it is reliably reported that the control will include telephone, telegraph and cables. The radio systems of the country already are under Government supervision. --- W. S. S.

viction for a felony. He served thirteen months at Falsom prison following a burglary conviction in Yuba county. According to detectives, he served several burg lary sentences in New York and New Jersey prisons, beginning when he plans to let down the bars barring was 16 years old. Sokal is a native bars.

- W. S. S. -HINDENBURG TOO SICK TO TAKE PART IN THE **HUN MILITARY AFFAIRS**

LONDON, July 23.—Despatches from various sources indicate that Hindenburg has been too ill since the beginning of the year to participate in military matters. He attended several imperial receptions at great physical effort. It is reported that it tires him even to speak. He is now at

Program of Aid to Russia Some of Most Thrilling Stories Will Be Announced By President Wilson

BY ROBERT J. BENDER (United Press Staff Correspondent)

WASHINGTON, July 23.-Allied action in Siberia impends.

President Wilson has completed an announcement which will set forth to the world the program of aid for Rus- Rheims salient. sia, assuring the Russians and all peo-ples that ours is not a policy of ag-ward on the five mile front between

occupy Vladivostok with troops. With this base definitely under allied protection, the danger of armed German forces becoming a greater

menace in Siberia will be countered.

The action is not "intervention." It is the foundation work for the economic assistance which is to follow. President Wilson will outline specifically the whole proposed course of action and its purposes. His declara tion will be spread broadcast through all countries of the world to offset any effort by Germany to spread the false rumor that the allies are ag-

gressively acting against Russia. A force of trained newspapermen will be sent into Siberia to establish contact with Russians and disseminate the news of America's program of assistance for the people.

Action is regarded as timely The Czecho-Slovak forces have "cut line just five minutes before the time the ice" in Siberia. The people of that set for the attack on the morning of part of Russia are friendly.

OVER TODAY BY THE GOVERNMENT

WASHINGTON, July 23 .- The Government today took over the Cape Cod Canal.

Have Turned the Corner In Production and Supply. He Tells Allies

LONDON, July 23.—Herbert Hoover, United States food administrator, told the Allied food controllers here today that the corner in food production and supply has been turned. There is no longer anything to fear from the German U-boats, he declared. In his address, delivered at a luncheon at the Mansion House, he

"The submarine menace no longer threatens the food supply. We have turned the corner at last.

"During the last twelve months the United States has exported 10,000,000 tons of foodstuffs to the Allies. During the next twelve months, with less pressure, we can export 21,000,000 tons, including 3,000,000 tons from Canada.

'We have built enough ships to handle food for the soldiers.

"The United States pork outlook alone will supply meat for the Allies. "In contrast to this, hunger is the dominating fact with the enemy. They have been unable to produce the food they need. Starvation rings in the words of the so-called 'German

"These conquered people are being slowly but surely starved. Their loss of lives through malnutrition and starvation during the next harvest probably will be larger than all the casualties on the west front."

Hoover read the following message from President Wilson:

"The American people will gladly and willingly make any sacrifice in their consumption and production of foodstuffs to maintain the healthy comfort and the courage of the Allied peoples. We are, in fact, eating at a common table with them.

Present at the luncheon were food controllers of England, France, Italy, Belgium and other countries.

ANGELS PERCH HIGH IN POST MORTEM SERIES

LOS ANGELES, July 23.-The Angels are definitely perched at the head of the late Coast League's percentage cclumn today, as a result of winning five games from Vernon in the post mortem series decreed advis-able to settle the title battle. Incidentally this is the second pennant to come to the Angels in three years, and the other one was missed by just a game and a half.

Lunes, southeast of Mezieres. "The Badische aniline and soda factory was again subjected to attack and many good bursts were observed in the factory. "At a factory southeast of Zwei-

brucken a large explosion was caused Bombs were dropped on three hostile aerodromes and hangars were seen

"Low flying airplanes attacked and hit five trains, bringing them to a standstill. Searchlights and anti-aircraft guns were attacked with bombs and machine gun fire. All of our machines returned.

"On the 22nd the important powder factory at Rottwell was attacked. A direct hit was observed on one of the big sheds and as a result several other sheds in the vicinity blew up. A fire broke out which could be seen for sixty miles. "All of our machines returned

ONLY ARTILLERY FIRING ON FRONT LAST NIGHT

safely.

PARIS, July 23 .- (Noon.) - Only artillery fighting was reported on the whole offensive front last night, the war office announced today. French troops advanced on a three-

mile front north of Montdidier (Picardy front), capturing three villages and 300 prisoners. "During the night only artillery

fighting was reported on the whole pattle front," the communique said. "North of Montdidier a sharp local operation enabled the French to take Mailly-Raineval, Sauvillers and Aubvillers, together with 300 prisoners.

Aubvillers is six miles north and slightly west of Montdidier. Saucillers is a mile north and slightly west of Aubvillers. Mailly Raineval is two miles north and west of Sauvillers.

WITHDRAWAL OF ARTILLERY FROM SALIENT INDICATED

LONDON, July 23 (1:50 p. The German artillery in the Rheims and Soissons regions is comparatively inactive, indicating a withdrawal of the guns, according to authoritative information at 8:11 a.m.

BRITISH IMPROVED THEIR POSITIONS LAST NIGHT

LONDON, July 23.—British troops made slight advances in various sectors of the Picardy and Flanders fronts yesterday and last night, Field Marshal Haig reported today.

The advances improved British positions south of Hebuterne and near Hamel, both of which are north of Albert and between Merris and Meteren, on the west portion of the Flanders salient.

> BY J. W. T. MASON (United Press War Expert)

NEW YORK, July 23.—General ch is moderating his drive between the Aisne and the Marne for the apparent purpose of consolidating his gains and preparing for inevitable German counter attacks.

Great caution is now necessary on the part of the Allied commanders and General Foch is splendidly demonstrating that he cannot be run off his feet. It would serve von Hindenburg's purpose admirably if General Foch were to extend the battle along the Aisne-Marne salient into a major

A forward Allied movement on so gigantic a scale before the Americans are fully ready to participate, would be to accept the German terms on which such a battle should be

General Foch is now declining to be inveigled into playing Germany's game under such conditions. The Aisne-Marne thrust must be considered as a local offensive, which, however, has already had major consequences through safeguarding Paris and driving the Germans north of the Marne. General Foch must not be expected to press forward recklessly, after having already secured such highly important results.

General Foch, above all, has demonstrated that he will not sacrifice his own men on the barbarous principle of von Hindenburg and the Hohenzollerns.

Von Hindenburg is unquestionably piling his reserves into the northern and central areas of the Aisne-Marne most important pivots of the present make them welcome." German resistance. In this respect, von Hindenburg's future offensive plans. The moral effect in Germany of a confused offensive strategy at the kaiser's headquarters will be very city's affairs and assisted in every way Kuehlmann for predicting that peace ination are known. cannot be won on the battle field.

in caves and cellars without having enough to eat and without knowing where to get any. We were buoyed up by the hope that Chateau Thierry again would be French. "Meantime our houses were crumb-

ling over us. The Germans ordered us to stay in our cellars except when we were permitted to leave. Not having sufficient food themselves, they ordered the old men out every day to bring in vegetables from the fields behind the German lines. Then the soldiers would come and take away practically all we brought in.

"We had no bread, no fats, no wines and were struggling to live on the few vegetables the Germans left us. The Germans did not abuse us, except by taking everything they wanted without paying a single sou and by carrying off everything they fancied. "I was unable to estimate the num-

ber of Germans in Chateau Thierry owing to the restriction, which did not permit us to move about much. Everything was 'verboten.' "Many of the clder people were

NATIVE OF MEXICO IS SEEKING CITIZENSHIP

Mexico in this county, the number who have asked for citizenship in this country could be counted on the fingers of one hand, and the thumb and possibly one or two fingers would not be needed in the count. Yesterday came an exception to the usual disposition of natives of that country toward citizenship. That exception is Ray Zermeno, who was born at Lajos, Jalisco, Mexico. Zermeno is 18 years old, and came across the border in 1906. Yesterday he took out his first papers of naturalization.

No Candidate For Salaried Office Can Be a Member. Says State Head

Under instructions from the State Council of Defense, three members of the Orange County Council of De fense either have resigned or will re sign from the county council of de fense. The state council decide no candidate for a salar ied office this fall should remain on county council of defense. Under that condition, District Attorney L. A. West although he has no opponent for his re-election, has resigned, and Judge Z B. West has recommended the ap pointment of Attorney J. C. Burke for appointment to fill the vacancy.

The resignations of Sheriff C. E Jackson and Supervisor T. B. Talbert will be sent probably this afternoor following a meeting of the County Council of Defense at 2:30 o'clock.

The action here is in keeping with similar action being taken all over the state in response to a telegram sent to each county council of defense by Charles C. Moore of San Francisco director of the State Council of De fense. The wire reads as follows:

"By authority of the Executive Committee, you are hereby notified that it has been decided to be against the best interests of the State Council of Defense that any candidate for salaried elective office should be member of a courty council.

"Therefore, if any members of your ouncil are affected by this ruling please see that resignations promptly are submitted. "Any additions to your membership will be appointed from here."

FINDS PLAINTIFF IS ENTITLED TO SHARE

JUGGLING BELGIUM

Chancellor Von Hertling says now that he has been misunderstood, and Germany "does not intend to keep Belgium in any form whatever." It is natural, perhaps, to misunderstand a man who contradicts himself as often as Von Hertling does., If we assume, however, that his latest outgiving was sincere, and that he will not revoke or amend it before this comment gets into print, the present German attitude regarding Belgium is plain enough.

hold Belgium, because she begins to see that she cannot get away with that particular piece of plunder. The world will not endure it, and the Belgiums them- and sailors and aviators and those of our Allies, our selves will make Belgium an asset of little value to hospital corps, our war nurses, and every agency and Germany if they are forcibly swallowed. Germany effort that makes for victory and peace, without which therefore is holding Belgium, the chancellor frankly confesses, "as a pawn" in the game. The kaiser knows he must give up Belgium, but he will insist on getting what he considers a fair equivalent.

Lorraine as well, may be lumped with Belgium. If hard pressed, the kaiser could afford to give up all his conquests and claims west of the Rhine in return for the privilege of malevolently assimilating Russia at his leisure, and organizing the new population and territory on a military basis as part of a new German empire, leading to the future conquest of the world. He would have there iron, coal, men, grain and everything else he needs.

This also is a delusive dream. Germany will give up not only Belgium and France, but Russia

EXCHANGING PRISONERS

England has just begun to exchange prisoners soldiers. with Germany. The first Germans returned to their Fatherland are reported to be sadly disappointed. They complain that the food is far worse in quality for refraining from election activities this year. Men and much less in quantity than what they were given and women are too busy for the old-time activities, but in the British prison camps, and that they are forced they still have time to think and to vote, and it is more to perform intolerably hard war tasks.

The British, on the contrary, rejoice to return men to manage our affairs. home, and with good reason. Many of them are physical wrecks. Nearly all are incapacitated for they were subjected by their captors.

ago. It serves to explain why the Allies have so are trying their darndest to handle it that way. long refrained from the custom, almost without tion in previous wars, of exchanging prisoner with the enemy as soon as possible after their capture. Neither the British nor French are surprised. | * They knew exactly what to expect. They realized that while they sent the captured Germans back home and still there is little activity. Growers are hoping that fair and decent treatment during their captivity, the time it is in order to call attention to the need for more men returned by Germany would be for the most general co-operative effort as to next year's crop. The part an economic liability.

German government to heed the international rule their duty to themselves and to their industry. that exchanged prisoners shall not return to the army. nor need they expect the individual Germans to keep ing: their parole. There is no more honor in Germany. The men sent home will return, as a matter of course, packer should not contract for the crop. The government to some form of military service. said to be economizing by putting bigger holes in simple waystheir cheese. Next thing the Italians will be doing the same thing with their macaroni, and stretching kinship-And she will never know-It means less to them their spaghetti thinner.

Orange County Comment

Art Gallery," we wrote: "Art may be defined as the outward expression of man's struggle toward the ideal." Now comes to this office an unsigned note, in a woman's handwriting, "How would you define ideal?" Ideals, my no doubt fair, but certainly unknown correspondent, I would define as "the mental conceptions of perfect and harmonious conditions." Futhermore, in view of the fact \$5.00 that my correspondent alludes rather sneeringly to ART, I would add that every good has sprung from a love of the beautiful. In conclusion, also for the lady's benefit, would define "intuition" as "direct apprehension of the truth without reasoning." In this connection I have now, without reasoning, arrived at this truth: "The lady is afraid to sign her name." Want of hereditary predisposition, or natural ineptitude, may prevent many from becoming artists. But whoever, in Laguna Beach, sneers at ART, shows a certain strain of egotistical vulgarity Madam, fate apparently wrote the wrong address on your back when it urged you to wend your steps in this direction. But we retain Faith in the beauty of our surroundings; we still have HOPE of your ultimate conversion; and as a last resort-"CHARITY"-the road to Santa Ana is in excellent condition.

Anaheim Gazette: The noonday angelus which origthated in California and has been observed in Anaheim for several months, has been adopted throughout the entire United States. The suggestion comes from Washington that everybody pause when the seven strokes of Germany is weakening in her determination to the bell are heard and repeat the following prayer: "God bless and guide our president, our legislators and others in authority; God strengthen and watch over our soldiers there can be no righteous peace."

Orange News: No sooner had Holland yielded to Germany's demands for transporting war materials over What he would consider an equivalent becomes Dutch territory than Germany started a systematic camincreasingly clear. It is, in all probability, a free paign of machine-gun attacks from airplanes against hand in Russia. On this basis, too, it is possible that unarmed Dutch fishing vessels. Any nation that let the occupied part of France, and possibly Alsace-Germany slap one cheek may safely count on getting the other slapped, too, and both eyes blacked besides.

> Placentia Courier: When the boys come home and ask their friends and neighbors, "What did you do to win the war?" the financial slacker is going to experience some unpleasant times. He should.

> Garden Grove News: The people who are obliged to go abroad at present do not complain if they find themselves "alone, alone, all all alone, alone, on a wide, wide sea." This is infinitely preferable to the companionship of submarines.

Seal Beach Wave: It requires something more terrible than a Hun to throw a scare into the Yankee

- W. S. S. BEAN ASS'N DIRECTORS ARE ALL RE-ELECTED

OXNARD, July 23.-All of last ear's directors of the California Lima Bean Growers' Association were reelected at the recent annual meeting held here. The directors are: W. S. Saviers, Oxnard; B. F. Barr, Huene-C. Perkins, Camarillo; William Culbert, Somis; A. C. Vickers, El Rio; Roger G. Edwards, Saticoy; John Lagomarsino, Ventura; E. Stowe, Goleta; Alexander Jeffrey, Owensmouth; R. L. Owens, Van Nuys; W. C. Jerome, Santa Ana; G. W. Moore, Smeltzer; E. H. Jones, San Diego county; Edward Chaffee, Garden Grove. The association expects to pool between 1000 and 1200 carloads of beans this year.

The annual report of R. L. Churchill, manager, showed that the members of the association will net a little over \$11 a hundred pounds for recleaned beans of last year's crop. The average selling price was \$11.26 a hundred. Deductions for selling expense, storage and insurance must be made from that figure. The association has increased 130 per cent in contracts of new members over the 1916 membership.

Political Announcements

JASPER LECK

No one ever doubts the sincerity of urpose or the integrity of Jasper Leck, who is a candidate for re-election as supervisor of the fifth district. He has always been recognized as a man essentially honest, and his friends say that his experience of eight years Turks report victory over British as a county official and his long years of residence in the county especially equip him for the office he holds. He did not decide to run until after he had interviewed a large number of voters of the district and it was upon their ssurance that he had handled the position satisfactorily and thoroughly that he decided to become a candidate for re-election. Supervisor Leck believes in making roads of a permanent nature whenever there is money available, rather than in using the same money in make-shift work. That he has not wasted money or spent money just to be spending it is shown by the fact that at the end of the last fiscal year there was \$23,000 in the road fund of his district. With other supervisors, Supervisor Leck stands for a substanial reduction in the county tax rate this year. The rate will be reduced to not over \$1.55, possibly to \$1.50.

ELECTED SECRETARY OF Y. M. C. A.

Anaheim Being Considered As Next Location For Headquarters, Open Aug. 1

Rev. A. F. Roadhouse, former pastor of the Christian church, has been elected secretary of the Orange County Y. M. C. A., the selection having been made at the regular monthly business meeting of the executive committee held last Thursday evening at the home of Prof. J. A. Cranston. About fifteen members of the committee were present, and the vote for the minister was unanimous. He will take up his work August 1.

A committee has been appointed to take up the matter of the location for the county headquarters with Rev. Roadhouse. Anaheim is being considered as the next location, as Santa Ana and Orange have both had the secretary for a term.

P. M. German, the chairman of the committee, will soon go into Y. M. A. work, his application having een accepted, and he is awaiting all to go overseas.

Besides the election of a secretary to take the place of Ralph G. Cole, who resigned to take up different Y. M. C. A. work, the committee transacted other routine business.

ALMOST A SHADOW. AFRAID TO EAT

"My son-in-law was so bad from tomach trouble that he was reduced o almost a shadow and was afraid to at anything, as all food caused bloating of gas which pressed against his heart, worrying him very much. Our druggist persuaded him to try Mayr's Wonderful Remedy and in two months he looked fine, can eat anything and works hard every day." It is a simple, harmless preparation that re noves the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments. ncluding appendicitis. One dose will convince or money refunded. For sale by druggists everywhere.—Adv. - W. S. S.

Gov. Stephens Addresses the Methodist Conference at Huntington Beach

Calling upon all Californians to put forth their best efforts in war work, Gov. Wm. D. Stephens today addressed the camp meeting gathering of Methcdists of Southern California at Huntington Beach. The governor's address rang with patrictism, and with a genuine enthusiasm for carrying forward this state toward doing greater things for winning the war.

The governor declared that every Recruiting committee headquarters state in the union must give its fullest support to the administration carrying forward its war program. That program is aimed at victory for America, and every true American is

back of the gigantic effort.

"This war must be to a finish. There salesmen, mechanics. These are need shall be no compromise. America will Enemies of the Home Vegetable Gared at once. If you believe you can see the fight through to a complete den. (Farmers' Bulletin 856.) County Trust and Savings Bank head and shoulders above all in doing Home and Market Garden. BY FRED S. FERGUSON (United Press Staff Correspondent) WITH THE AMERICAN FORCES IN PICARDY, June 10. (By mail.)—Is the warring portion of the human race

becoming "cat-eyed?" This question is raised by an Amercan doctor in Picardy. It must be, in his opinion.

Practically all circulation-movements of troops, hauling of supplies and ammunition to the front—is at A successful Community Drying night. Automobiles scurry over roads full of ruts or shell holes, dash around curves and through villages without the aid of a light of any description and regardless of the drakness. Wagons are driven over even worse

roads, Not a light can be shown. And yet, at the wheel of the automobile, or guiding the team, is a man. A few months back, if he lived in a small town, he probably wouldn't leave the Homemade Fireless Cookers and house on a dark night without a lantern. If he lived in a city he probably groped and stumbled along his own Against Lightning. (Farmers' Bulle- familiar neighborhood street, if the corner light happened to be turned off. Artillery and Infantry Have Made Good; Air Power Yet to Be Shown

BY FRED S. FERGUSON (United Press Staff Correspondent)

WITH THE AMERICAN ARMY IN FRANCE, July 1.—(By Mail.)—As the world war enters its fifth year, the fighting forces of America hold balance of power in the greatest struggle in the time of man.

The fighting men of America have been tried on the world's most historic battlefields, and have proven that for bravery for stamina, for all of the things that it takes to win battles, they need bow to none. The American in the field is

of a fighting heart. He represents America's balance of power that will carry the democracies of the world to victory over German

But how this power is administered, how it is led, how it is equipped, how it is fed, how it is clothed, how it is munitioned, how it is given "eyesight" by airplanes that it shall not fight in the dark, how it is nursed when ill and wounded-upon these things depends the distance to vic

may be near, or it may be far, Americans, Frenchmen, Britishers (and Germans) may know that the American fighting man will not consider his job done, until the Allied cause is victorious. But the dis tance is not to be measured by the resistance of the German alone. In competence at home, faulty leadership in any of the branches dealing with the war, is going to mean a long er path, and a path dyed with Ameri

Representatives of America's balance of power are arriving in France by hundreds hourly. As this is written more than 1,000,000 men have landed. Every man brings the hour of victory nearer, but the administration, the leadership, must be behind

I have been with the Americans in every important action to date, from the first raids in Lorraine to the taking of Cantigny in Picardy and the second battle of the Marne. The men taking part in these actions were from every corner of the United States. They ranged from newly enlisted men to veterans.

But always there was the same spirit, regardless of the difficulty of the task or the hardships involvedcheerful obedience of orders, anxiety to get at the job and complete it, and certainty in execution and then modest disclaimers of having done any more than was their duty, or more than any other American would have

During the early months of this year, the Americans in France were merely training. They could not be figured as real fighting units in the intricate game of trench warfare. First, northwest of Toul, then on the Chemin-des-Dames, then near Luneville, and later near Verdun and in Alsace, American units appeared. They were put in the line with the French, and soldiers and officers alike learned from their French instructors the tactics of the new war game. It was

LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supfragrant lotion into the face, neck, arms and hands each day and see how

the war organization at home falls the Not All May Fight

insofar as man power is concerned is should also be remembered that 1,000,000 men in France does not mean 1,000,000 fighting men. Taking a division as a unit it requires approximately 12,000 men and from 6000 to 8000 horses to keep 17,000 bayonets and artillery in the line. Multiply this by the number of times 17,000 men you believe it will take to win the war and you can estimate the total number of men who must be transported

and cared for.

America's infantry and artillery that has been in action has made good. The American fliers now on the front are using French machines chiefly. They have taken quickly to the game. German machines have been brought down, and German hospital or dressing station displays towns have been bombed. But there planes in France. On a single night I saw more than 100 French planes leave one field on a single bombing rence, not only from this field, but

FRUIT EXCHANGE

Associations Consider Co-operative Production Move, Many Favorable

A movement has been started to enable the Thomas Crawford marmalade factory, opened some time ago in Anaheim, to be taken under the wing of the California Fruit Growers' Exchange. This step is being taken so that the marmalade factory can take advantage of the big organization's advertising campaigns and the brand "Sunkist" can be used for the marmalade.

Fruit growers wishing to enter the new arrangement will be admitted upwith the principles of the exchange.

belonging to J. L. Hunton of South Batavia street was wrecked by a Pacific Electric car at the West Palmyra avenue crossing Sunday morning. Mr. Hunton, who was driving, escaped in-

Hunton was driving east of Palmyra and met the car at the crossing. He tried to turn down Lemon but failed to clear the track. A front wheel was wrenched off his machine and carried some distance. The car received other damages but the driver was unhurt.

Although menaced by the shadow of Mars, Dan Cupid twanged his bow with his usual acuracy when wedding bells chimed out for a popular local couple. Miss Lucile Bird, daughter of Mr. and Mrs. P. I. Bird of 269 North Glassell street was wed Saturday in San Diego to Walter Brubaker, young Camp Kearny soldier, who is a son of Mr. and Mrs. A. M. Brubaker of Villa Park. Rev. Faris of the southern city was the officiating minister.

The wedding is the culmination of a high school romance, both being mem-bers of the Orange Union High School class of '14. The groom has answered his country's call and is a member of headquarters company, 160th infantry, at Camp Kearny.

A farewell party was given Friday evening at the John Bunke home in honor of Leo Bunke, who left yesterday for Camp Lewis. Progressive whist was the amusement of the evening. Prizes were won by Miss Esther Batterman and Fred Kamath. Later in the evening vocal selections were given by Miss Carrie Kogler and Miss Esther Batterman.

The house decorations and score cards were in red, white and blue. The same color scheme was carried out in refreshments.

A beach party at Laguna Saturday evening was enjoyed by Mr. and Mrs. W. H. Flippen and children, Mrs. E. Persell, Mr. and Mrs. John F. Fletcher, Dr. and Mrs. Leon Patrick, Mr. Wm. F. Scott, Mr. and Mrs. C. A. Wood and Miss Phylis White.

Mrs. A. Gutheil, Miss Carrie Leitnart, Miss Marguerite Habener and Mrs. Martha Hammond of McFarland, who is a house guest at the Chris. Habener home, spent Sunday at Newport. J. D. McBride has returned to San Diego and has resumed his work with the orchestra of the Hotel del Coronado. He is the youngest member of the

ORDINANCE NO. 158

An ordinance, amending ordinance No. 151, of the County of Orange, entitled "An ordinance granting to the Pacific Electric Railway Company, a corporation, a franchise granting the right to construct and for fifty (50) years to maintain an electric railroad along, over and across certain public roads and highways in the County of Orange," so as to extend the time within which the work thereunder shall be completed.

Whereas, by ordinance No. 151 of the County of Orange, passed and adopted by the Board of Supervisors of the County of Orange on September 5th, 1917, there was granted to Pacific Electric Railway Company, a corporation, a franchise and

ST. LOUIS, Market

ST. LOUIS, May 22.—Three cars lemons, two cars oranges here today.

LOCAL PRODUCE MARKET

The local produce market as a whole showed a slightly weaker tendency vesterday than for some time past, owing to the heavy arrivals of home-grown fruit and vegetables. Most of the stock was in fairly good condition and moved moderately.

The market was well supplied with simmer squash yesterday. The early produce for dropped and the remaining sales were made at 2½ to 3 cents per pound. Peas and beans were both weak and moved at about 2 cents under the figures of the preceding day. Green corn, also, was considerably weaker and showed a decline of 10 cents per lug. The quality of the produce of the preceding fay. Green corn, also, was considerably weaker and showed a decline of 10 cents per lug. The quality of the produce of the preceding fay. Green for the preceding day. Green corn, also, was considerably weaker and showed a decline of 10 cents per lug. The quality of the produce of the process of the preceding fay. Green for the decline in prices. Cucumbers moved steadily at 10 to 75 cents per lug, while tomatoes sold at \$1 to \$1.35 per crate and there were practically no offerings of northern stock.

The butter and egg call was active and butter jumped 1 cent per pound, making the quotation 54 to 55 cents per pound, while eggs also increased 1 cent and sold to continue the produce of the poor grade of stock offered, but gradually picked up throughout the day and sold at from \$2.50 to \$2.75 per crate, with some poorer grades eliling at a much lower level.

The butter and egg call was active and butter jumped 1 cent per pound, making the quotation 54 to 55 cents per pound, while eggs also increased 1 cent and sold to gradually produced the sold produced that the work of contracting the produced tha

ORDINANCE NO. 157

An ordinance, amending ordinance No. 149, of the County of Orange, entitled "An ordinance granting to the Pacific Electric Railway Company, a corporation, a franchise granting the right to construct and for fifty (50) years to maintain an electric railroad along certain public roads and highways in the County of Orange," so as to extend the time within which the work thereunder shall be completed.

time within which the work thereunder shall be completed.

Whereas, by ordinance No. 149 of the County of Orange, passed and adopted by the Board of Supervisors of the County of Orange on July 5th, 1917, there was granted to Pacific Electric Railway Company, a corporation, a franchise and right to construct and for fifty (50) years to maintain an electric railroad in, over, along and across certain public roads and highways in the County of Orange, therein particularly described, and Whereas, by Section 7 of said ordinance it was provided that the work of constructing said road should be completed within not more than three years from the granting of said franchise, and that if same should be forfeited, and Whereas, thereafter, on to-wit: the 9th day of March, 1918, the Honorable Railroad Commission of the State of California, by order made and entered in a certain proceeding pending before it, denied to said Pacific Electric Railway Company permission to construct said railroad, until after the end of the war now being waged, and
Whereas, said Pacific Electric Railway Company is thereby for the duration of the war now pending, prevented from

now being waged, and
Whereas, said Pacific Electric Railway
Company is thereby for the duration of
the war now pending, prevented from
prosecuting said work and made unable
to comply with said Section 7 of said
ordinance, as to completion thereof, and
is deprived of the benefit of the time by
said ordinance sranted for the completion
of said work, therefore;
The Board of Supervisors of the County
of Orange do ordain as follows:
Section 1. That the time within which
said grantee of said franchise, Pacific
Electric Railway Company, may complete
said construction is hereby extended, so
that the work of constructing said road
may be completed by it, its successors
or assigns, within not more than three
years from the date of the enactment
of this amendatory ordinance, unless the
war with Germany be sooner ended; and
in that event, said work may be completed within not more than one year
from the date peace is proclaimed by the
President of the United States.
Section 2. This ordinance shall take
effect thirty days after the date of its
adoption, and prior to the expiration of
fifteen days from the passage hereof shall
be published for at least one week in the
Santa Ana Daily Evening Register, a
newspaper printed and published in the
County of Orange, State of California, together with the names of the members
of the Board of Supervisors voting for

"They're Good Pals, Not Dolls," Says Doughboy; Were Ever on the Job

By FRANK J. TAYLOR (United Press Staff Correspondent) WITH THE AMERICAN ARMY IN FRANCE, July 15 (By Mail).-There is gloom in a certain regiment of Yankees, and it is not because they haven't had opportunity to whip

The regiment is going to lose what the men consider their most valuable esset, the McIntyre Sisters, also known as the Salvation Army girls. The McIntyre Sisters, Gladys and Irene, who have made chocolate, oughnuts, pies and sandwiches for the boys of this regiment, sent letters for them, banked money, and who have been "good sisters to every fellow in the regiment," have been transferred to a new post.

The troops holding this part of the line want to adopt the McIntyre Sis ters permanently-and who wouldn't When they came in the "goulash those wheeled smoking af fairs that look so good when a Yank hungry, were nowhere in sight. The Sisters served coffee in no time, and kept it up for three days. They had just 20 minutes' notice that a certain arge number of cups of coffee was Being efficient American girls, that was all the time they

"They're good pals, not dolls," is the way the doughboys compare the rugged, lively American sisters with French girls out near the front. When the doughboy comes around, he is usually eager to work, and he's happiest who is given a job dipping doughnuts, cutting good, or doing anything to help the Mcntyre Sisters. It a happy American family, this, out here where the shells rain in all too regularly, interrupting even pie making and doughnut dipping, for orders are that everyone scoot for dugouts when the Boches begin a bombard-ment. Practically every house in town has been hit and partly demol-

WILL ENTERTAIN SOLDIERS ABROAD

One of Washington's sweetest singers, Miss Elizabeth Howry, is going to join the group of talented artists who are now entertaining our boys on the other side. She plans to remain there for six months, touring the camps under the direction of the Y. M. C. A. and do her bit to liven up the

a dugout handy to sleep in. While they were absent at work one day a shrapnel shell came through the roof and punctured the bed full of holes There is plenty of excitement in this work, but very little time to get ex-

It is easy to see why there is gloom in a certain regiment at the front. Of course, there are some more girls just arrived in the little village to take over the already established canteen of the McIntyre Sisters. But they are not the same as your own favorite, tried-and-true, stick-through shot-and-shell sisters, the doughboys say. These brave pioneer girls are needed to begin another post. One thing is sure, some other regiment i going to be made awfully happy when the McIntyre Sisters join it.

FOOD AND DRUG ACT IN JUNE CHARGED

SACRAMENTO, July 22.-Twentynine cases of alleged violations of the oure foods and drugs act were referred by the State Board of Health durng June to district attorneys for pros cution, according to the state board's ulletin, just issued. Among the case

POISON KILLED THREE HORSES VENTURA, July 23.—One sack of squirrel poison recently cost Ventura ounty \$600. That amount has been paid to Daily Brothers of Camarillo, on account of the death of three fine horses which ate out of a sack of poisoned grain accidentally left within their reach by the county squirrelooisoning squad.

1105 East Fourth St.

Crime Against Unarmed Hospital Ship

This is not a moment for resting or boasting, but a moment when every ought to do, and what I do atom of energy should be applied to God helping me, I will do! the greatest use in helping to crush the menace of Prussianism, according to the July monthly bulletin of the California National Bank.

When Germany, with purring duplicity, launches her next peace propaganda, says the bulletin letter, or when the temptation comes to others shoulder the justifiable war time sacrifices and self-denials, think of this fiendish crime. On June 27th German submarine seventy miles rom the Irish coast torpedoed the 1,000-ton hospital ship Llandover; castle, which had been in use many nonths in the service of carrying sick and wounded from England to Canada. There were 285 persons, including 80 f the Canadian medical corps and 14 romen nurses, on board and only 24

At the time the ship was hit all ights were burning, including a huge ectric cross over the bridge, strings white and green lights on either de and the illumination of the red osses on the sides of the vessel. One the ship's boats containing twelve urses was seen to capsize and the vomen were drowned, and those other the life boats that were launched vere either shelled or rammed by the J-boat with the evident intent of destroying all trace and evidence of the dastardly deed. This is the limit of fiendish brutality and it paves smooth the road to Germany's certain oblivion. An analysis of present time happenings seems to indicate that the force of evil is beginning to crumble, for on he Piave a little more than two weeks ago, the Italians gave the Allies a vic tory that marked the turning point of he war, laying bare the weakness of Austria, and a week later, von Kuhlmann, Foreign Minister of the nation hat is bankrupt in honor, confessed Germany's weakness when he commited the unpardonable sin of telling the truth before the Reichstag, by saying, 'In view of the magnitude of the war and the number of powers engaged, it can hardly be expected that the end of the war can come through military iscussions alone and without reourse to diplomatic negotiations."

and boasting though, but the flood tide f advantage when every atom of menal and physical energy of every man, woman and child here at home who is opposed to Prussianism must be wisely and unselfishly applied to the greatest use. It is a moment similar to that of which Lincoln spoke when he nissions or omissions of the administration at that time. After hearing them patiently, he replied: "Gentlewere worth was in gold, and you had put it in the hands of Blondin (the man who in 1855 walked over Niagara Falls on a tight rope carrying a man on his shoulders) to carry across the Niagara River on a rope, would you shake the cable, or keep shouting to him: 'Blondin, stand up a little straighter—Blondin, stoop a little more-go a little faster-lean a little more to the north-lean a little more to the south?' No, you would hold your breath as well as your tongue, and keep your hands off until he was safe over. The government is carrying an immense weight. Untold treas ures are in our hands. We are doing the very best we can. Don't badger us. Keep silence, and we'll get you safe

What a moment for the cause of

mocracy. Not a moment for resting

Genius and nature have made uncontributions to humanity's cause, for now we have an army of 2,000,000 men; 1,000,000 are in France, 521,717 sailed in May and June, and nearly 200,000 of our boys "over there" have had six months' front line trench experience. On Independence Day we aunched ninety-five ships, representing 474,464 tons of shipping to be added to America's merchant fleet of ten million gross tons, exclusive of merchant crafts operated by the Government. Our aeroplane work is on a volume basis. American-made 155's those heavy barrage howitzers, moving overseas at the rate of better than ten a day. The acreage under culivation for the entire country is 16,-000,000 acres more than last year, and 18,000,000 more than a five-year average. There is a promise of 40 per cent more winter wheat and 47 per cent more spring wheat than last year. Crude oil production is meeing both domestic and war demands and crude stocks are somewhat ahead of the usual summer storage figure. marked degree of business prosperity is manifested in general throughout

our land. Our accumulation of food in cold storage has satisfactorily increased over a year ago, and the wool, cotton, copper, rubber, steel and sugar comparisons to both a year ago and a ive-year average are satisfactory nough to be encouraging, but there s another side to this story of human effort and bumper crops—a story that hows there is every reason why the American public should practice, with greater scrupulousness than ever, the

Santa Ana Junk and Wrecking Co. 417-419 West Fifth. Phone 1246.

economies in consumption of certain foodstuffs now widely known to be essential to the winning of the war. The United States will help to keep the bread basket of the world filled for another twelve months, but there will be less excuse than ever before for any kind of waste, or even of consumption of the kind that has heretofore been called normal.

The sugar condition is difficult to illustrate with figures. As a nation we consume 671,000,000 pounds per month —6½ pounds per person. The available supply for the rest of the year is only about 580,000,000 pounds per month Therefore we must reduce our monthy consumption to 51/2 pounds monthly -3 pounds per capita for family use and 2½ pounds per capita for manufacturers, bakers, etc. What will happen to our sugar supply after January Remember Dastardly U-Boat depends on crops and shipping, but the situation is more apt to be safe then if we curtail now.

Here is a good war-time motto for very one of us: "Though I am but one, am one. I cannot do everything, but I can do something. What I can do I ought to do, and what I ought to do,

BE NEW COMSTOCK

In yesterday's Los Angeles Express under "Forty Years Ago Today" appears the following paragraph:

"J. P. Johnson and Samuel Hawkins, two experienced miners, have returned from Silverado, as the newly discovered ledge in Santiago has been named. They say that from present appearances the district will prove as rich as the Comstock leads in Nevada. A tri-weekly stage will be operated between the mines and Santa Ana."

Old-timers here well remember the days when it was believed that the Silverado canyon was going to be a eal mining area. From time to time since 1878 mining companies have operated for gold in the Silverado canyon, but no Comstock or anything like a Comstock has ever been discovered. Scatterings of gold have been found, but nothing but low grade ore has been developed. One after the other those trying to develop a mine there have quit. Some of the efforts were ittle more than stock selling efforts.

Over in the Trabuco, Jake Yaeger as been doing some mining for all these many years, and he is still at it. Occasional spasms of effort to find he mother lode that has furnished uggets in Lucas canyon have marked he passing years also. Among those prospecting in the Lucas in the last en or twelve years was this same J P. Johnson, miner, who was discov erer of traces of gold in the Silverado orty years ago.

Another item in the "Forty Years Ago Today" yesterday was the follow-

"Conductor Frank Monaghan is trying to arrange an excursion from Santa Ana to Santa Monica and is soliciting signers for that purpose."

The Hadden Sprinkling System for Small or Large Lawns.

Surround Your Home With a Beautiful Lawn

Invention and science have produced the Hadden Sprinkling System by which you save 90 per cent labor and 40 to 50 per cent water evaporation.

The Hadden System does away with the hose entirely. It distributes water uniformly.

The Hadden System is positively the only one that cannot RUST or Corrode, and that can be quickly and easily cleaned.

Phone us. We will call and give you an estimate for installing the Hadden System in your lawn. (No charge for this service.)

CALL 99 EITHER PHONE.

Boiling Points vs Gravity Test

Boiling points are the real test of gasoline value. The old gravity test tells nothing about the carbureting and combustive qualities of gasoline.

Boiling points are vaporizing points. In straight-distilled, all-refinery Red Crown gasoline they form a continuous, uniform chain.

Combustion starts with the lowest boiling points and flashes on through the medium to the highest. The complete chain is necessary for instantaneous, full-powered combustion. Eliminate one link and the power chain is broken.

Red Crown, the Gasoline of Quality, has the full and complete chain of boiling points necessary for steady, dependable power: Low boiling points for easy starting, medium boiling points for quick and smooth acceleration, and high boiling points for power and mileage.

Look for the Red Crown sign before you fill.
